

# housewarming

Low Carbon Oxford North have produced six Housewarming Guides for those who may be considering upgrading their homes:

H1: Taking Stock

H2: Insulation

H3: Windows and Doors

H4: Draughts and Ventilation

H5: Heating and Controls

H6: Preparing a Whole House Plan

Download these free from

# housewarming

Are you concerned about: **Soaring energy prices?**  
**Phasing out gas or oil boilers? Climate change?**

Are you thinking about a warmer, more efficient home, but not sure where to start? We can help you work out what questions to ask an architect or builder and how to assess what's needed.

Low Carbon Oxford North's Housewarming programme can help you with clear, detailed information and support. Find out more about eco-renovation to cut your energy use and costs, reduce your carbon footprint and future proof your home. We are an independent charity with no commercial links.
